

Referral Portal Examples

The goal of a referral portal is to allow your users to grab their referral link, send invites, and track their referral status.

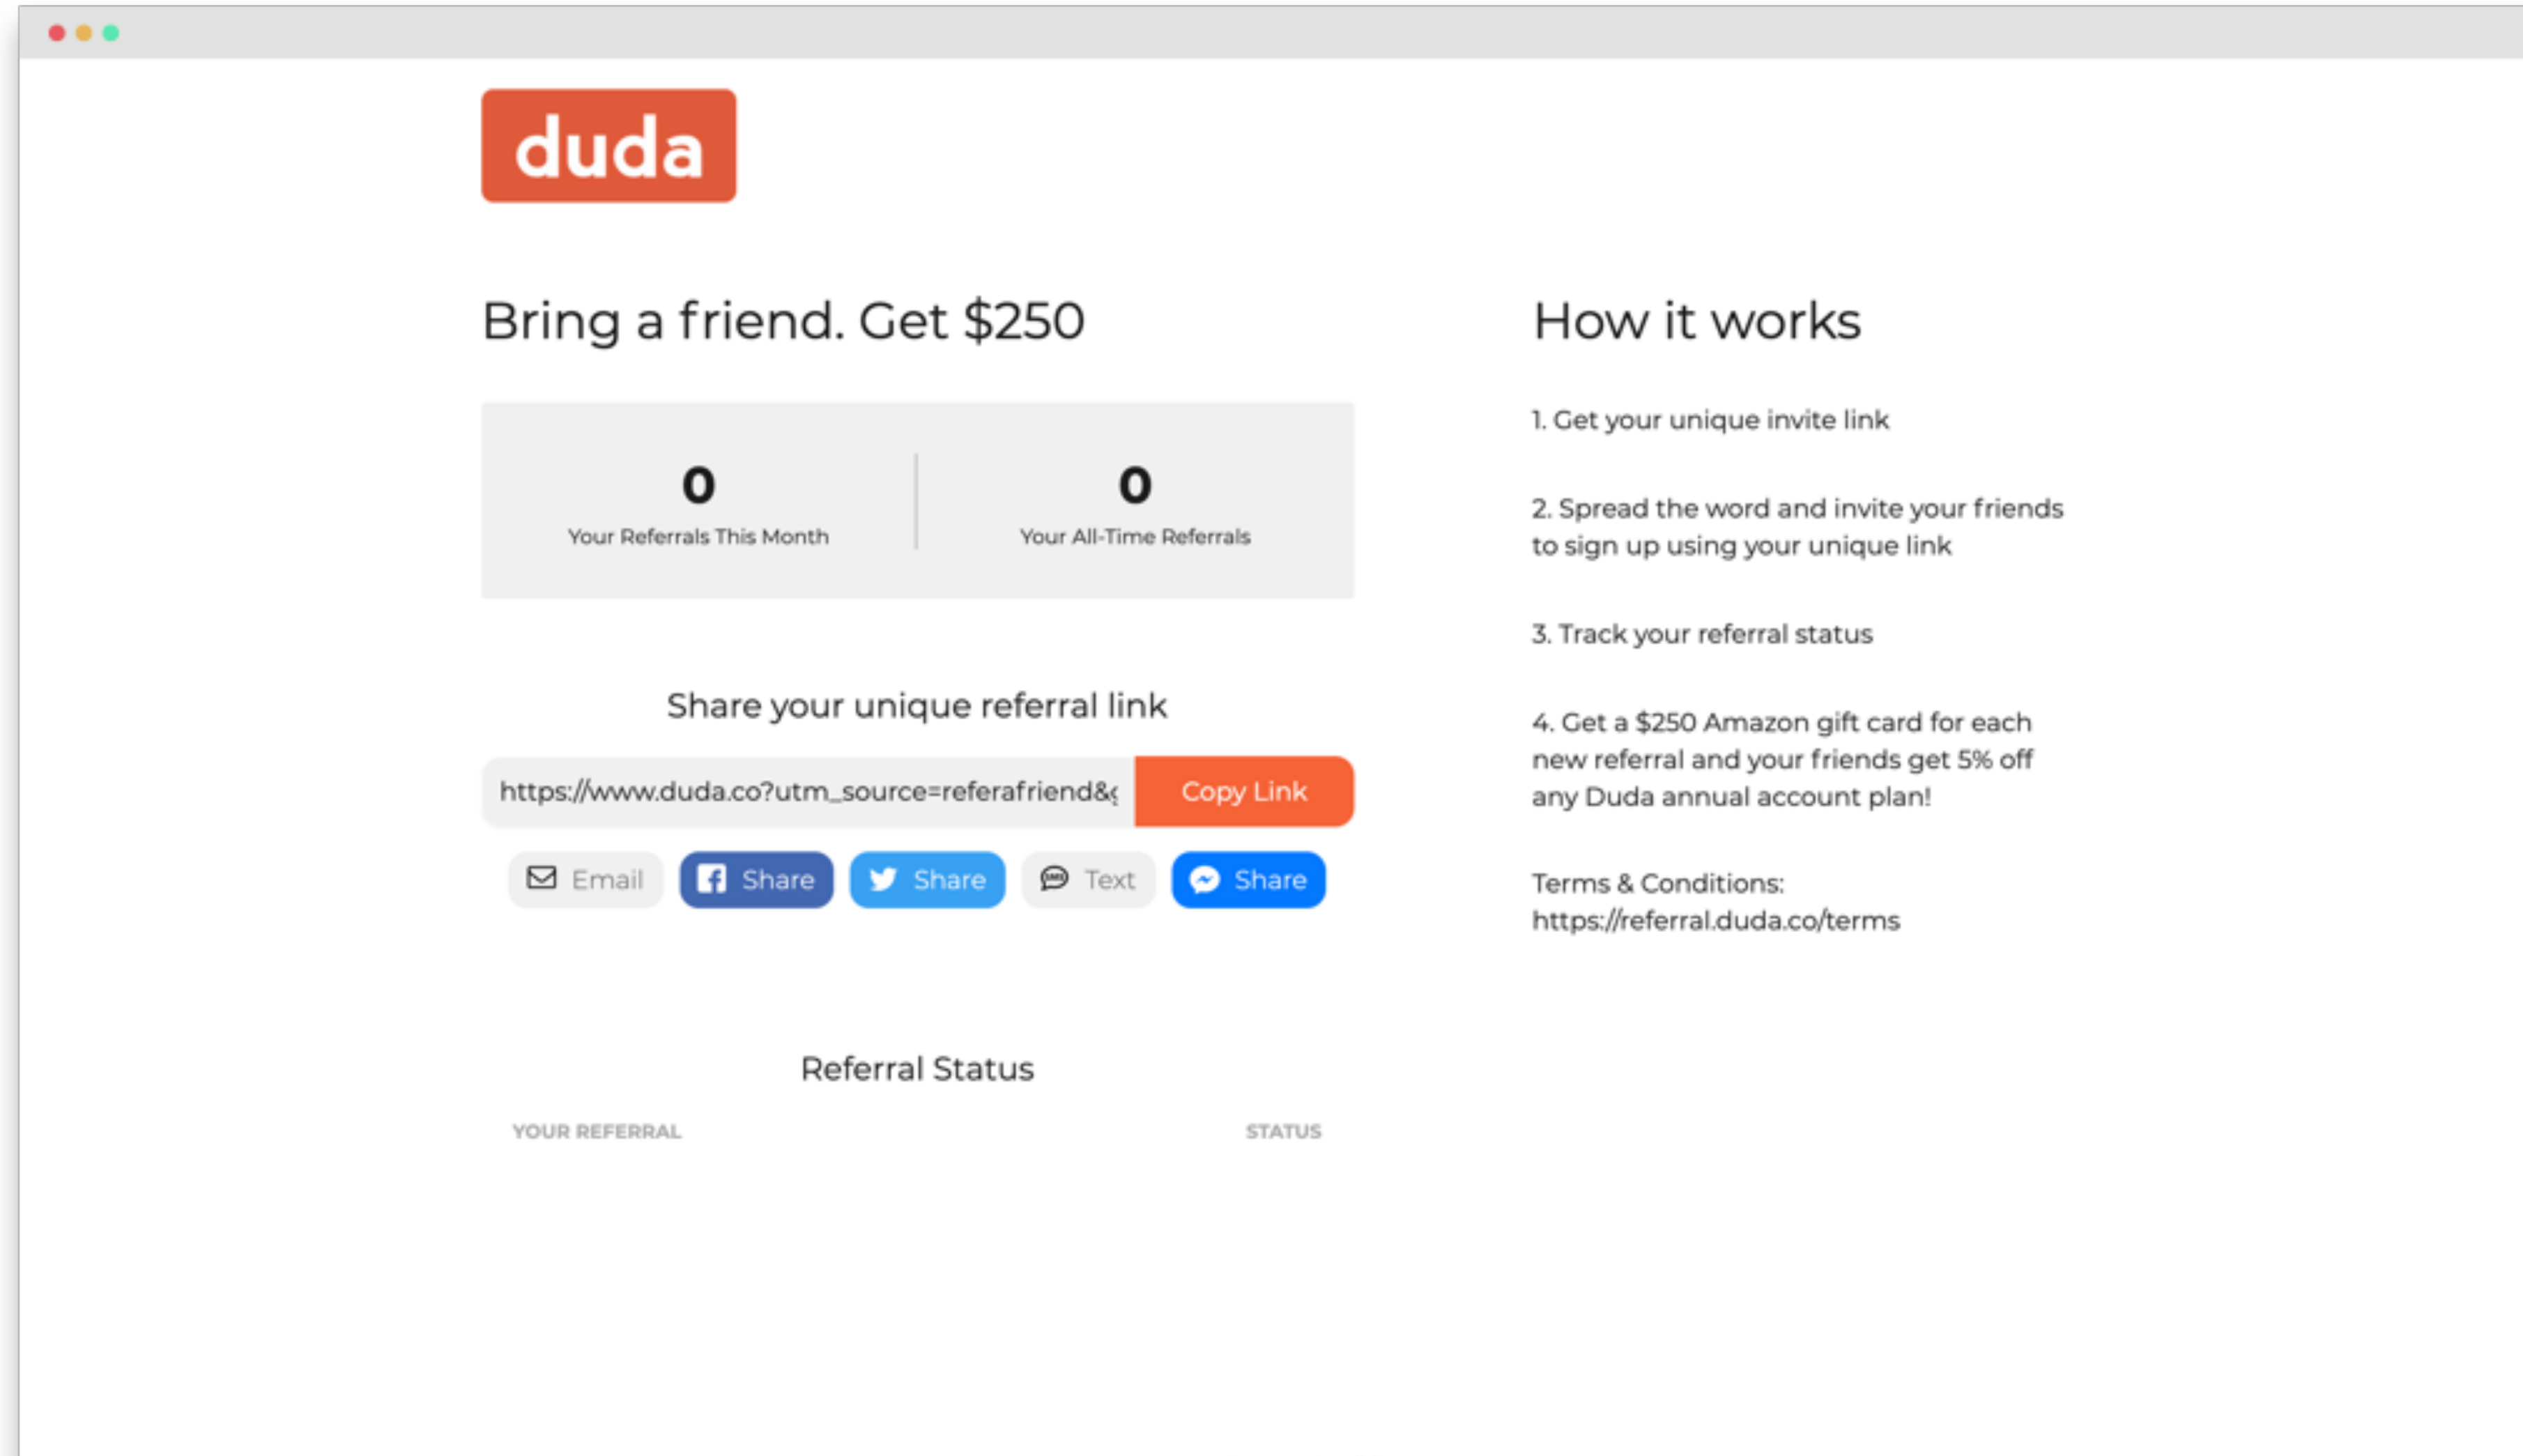

GrowSurf provides the following out-of-the-box and programmatic options:

1. GrowSurf-hosted Referral Portal (out-of-the-box)
2. Embeddable Elements (one-line-of-code blocks)
3. JavaScript Web API, REST API (full control and flexibility)

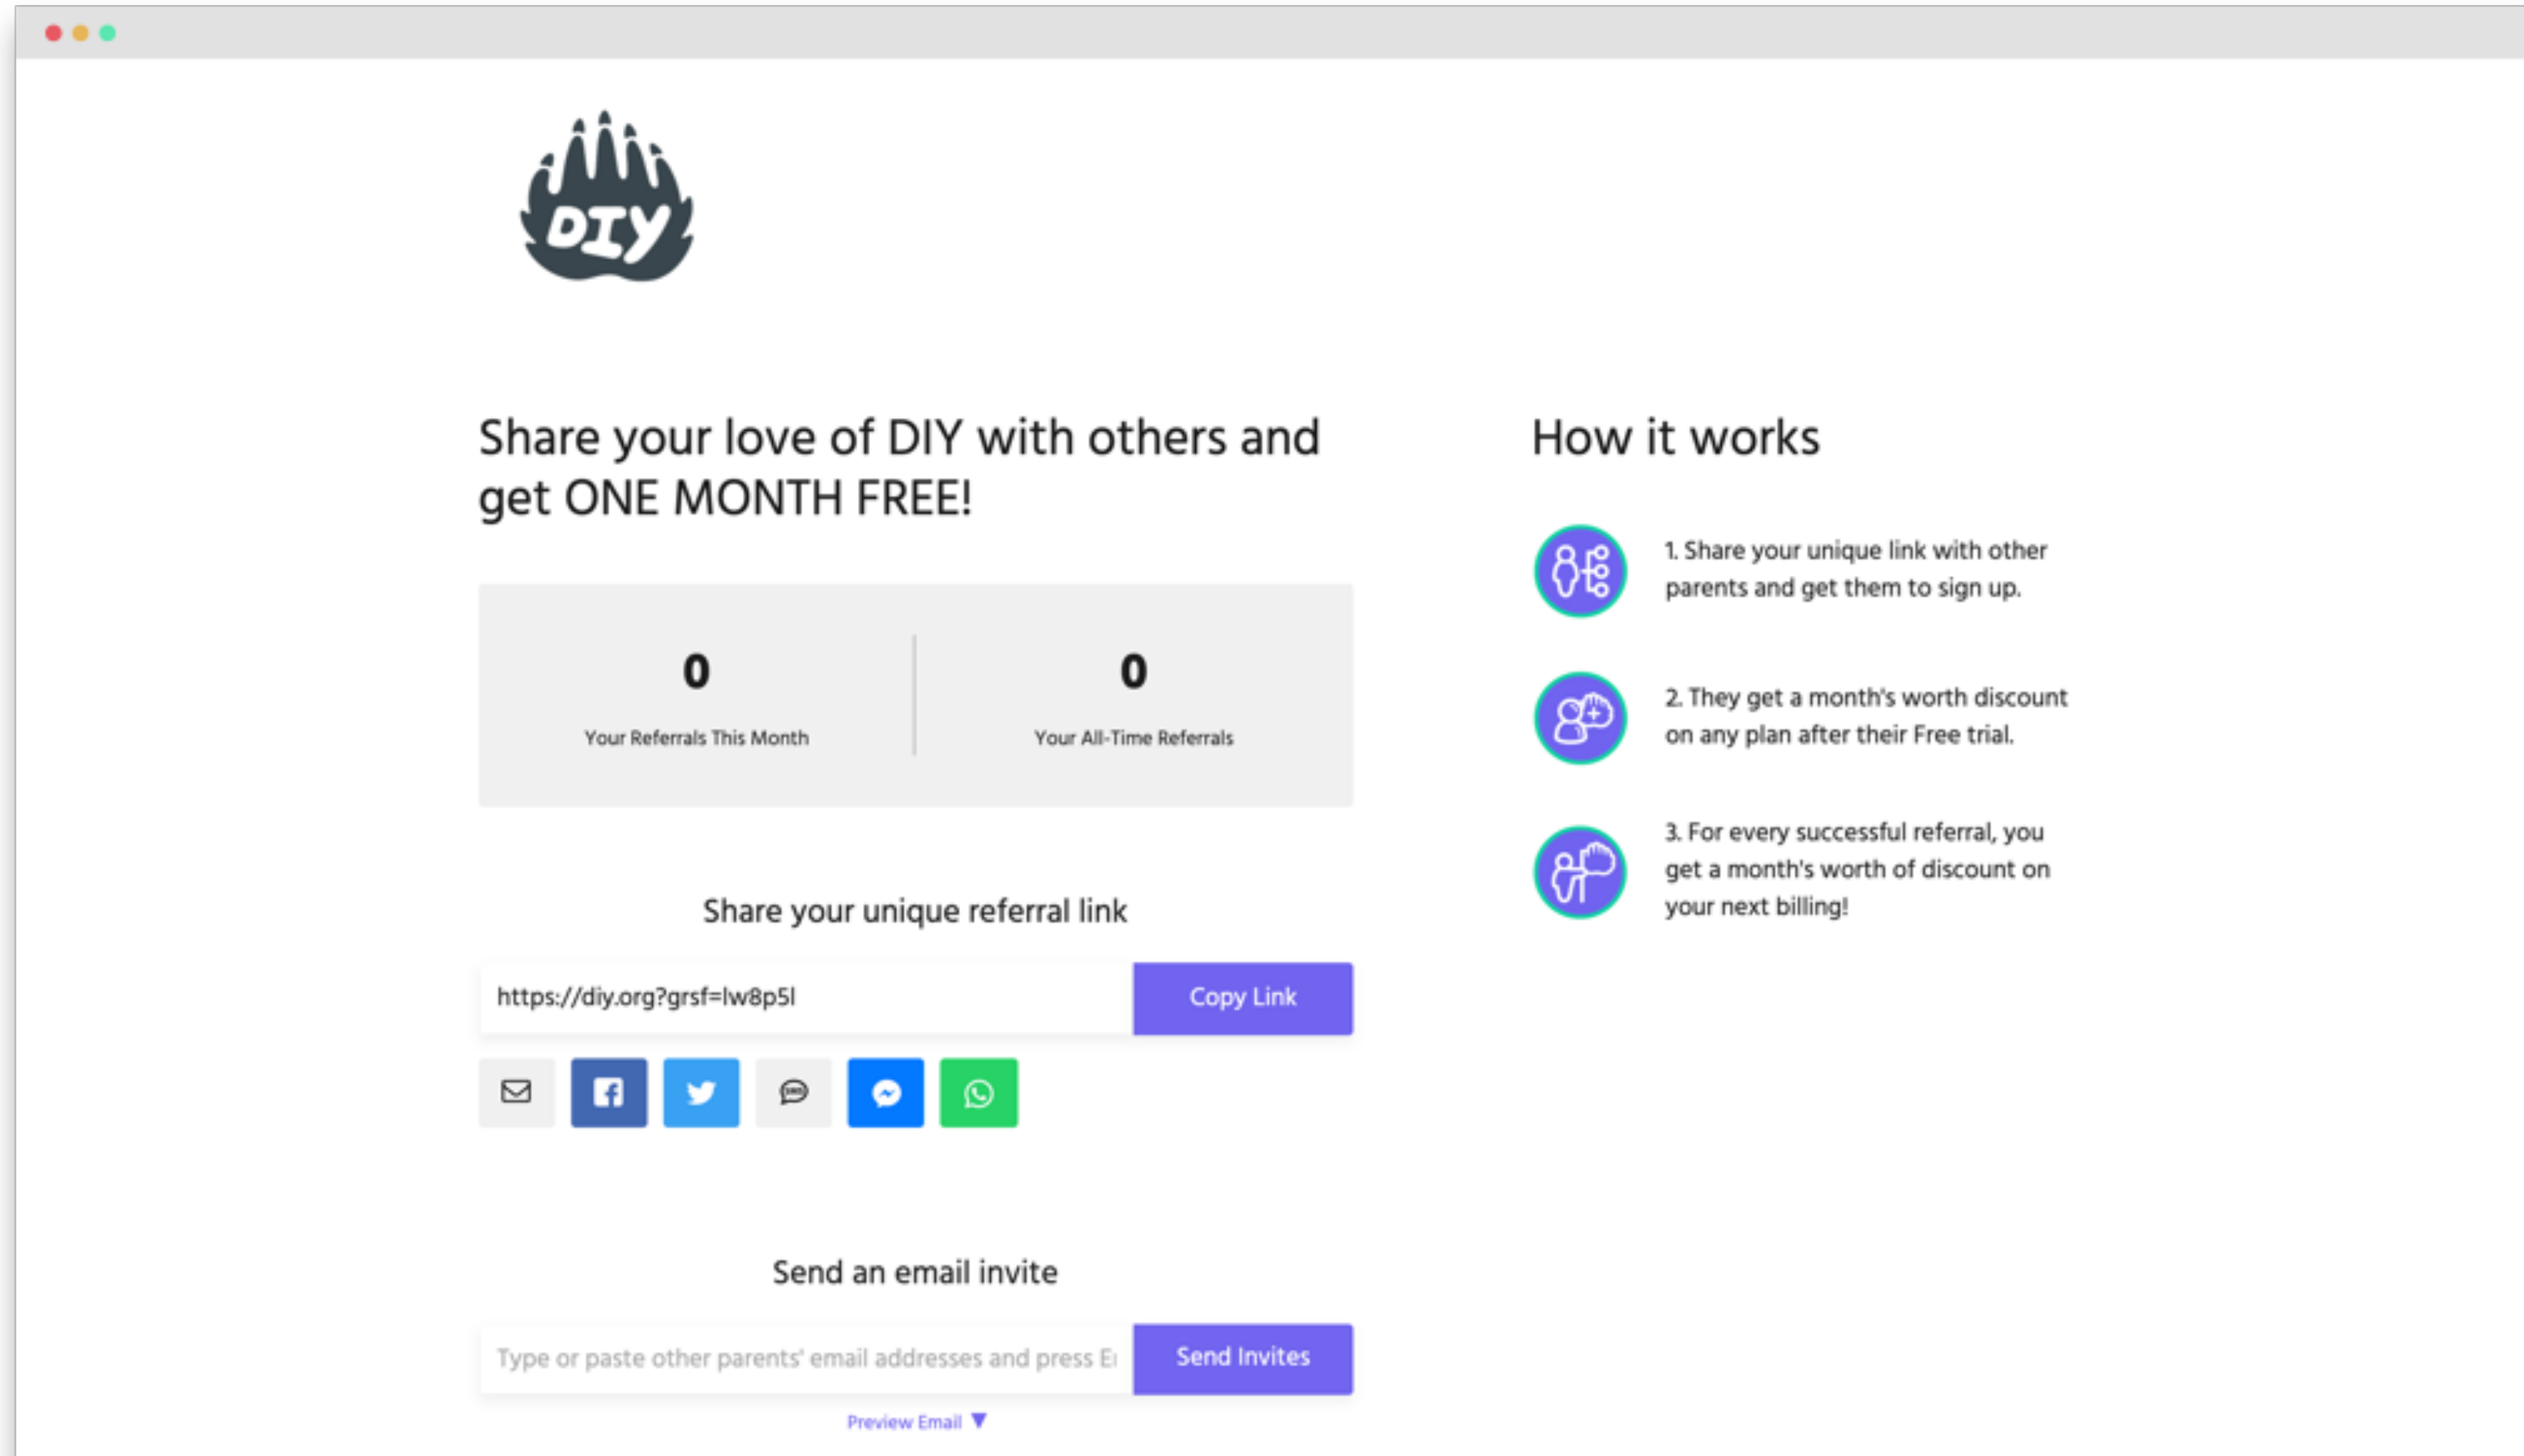

GrowSurf-hosted Referral Portal

These next examples use GrowSurf's hosted referral portal solution. Customers choose this solution for the following reasons:

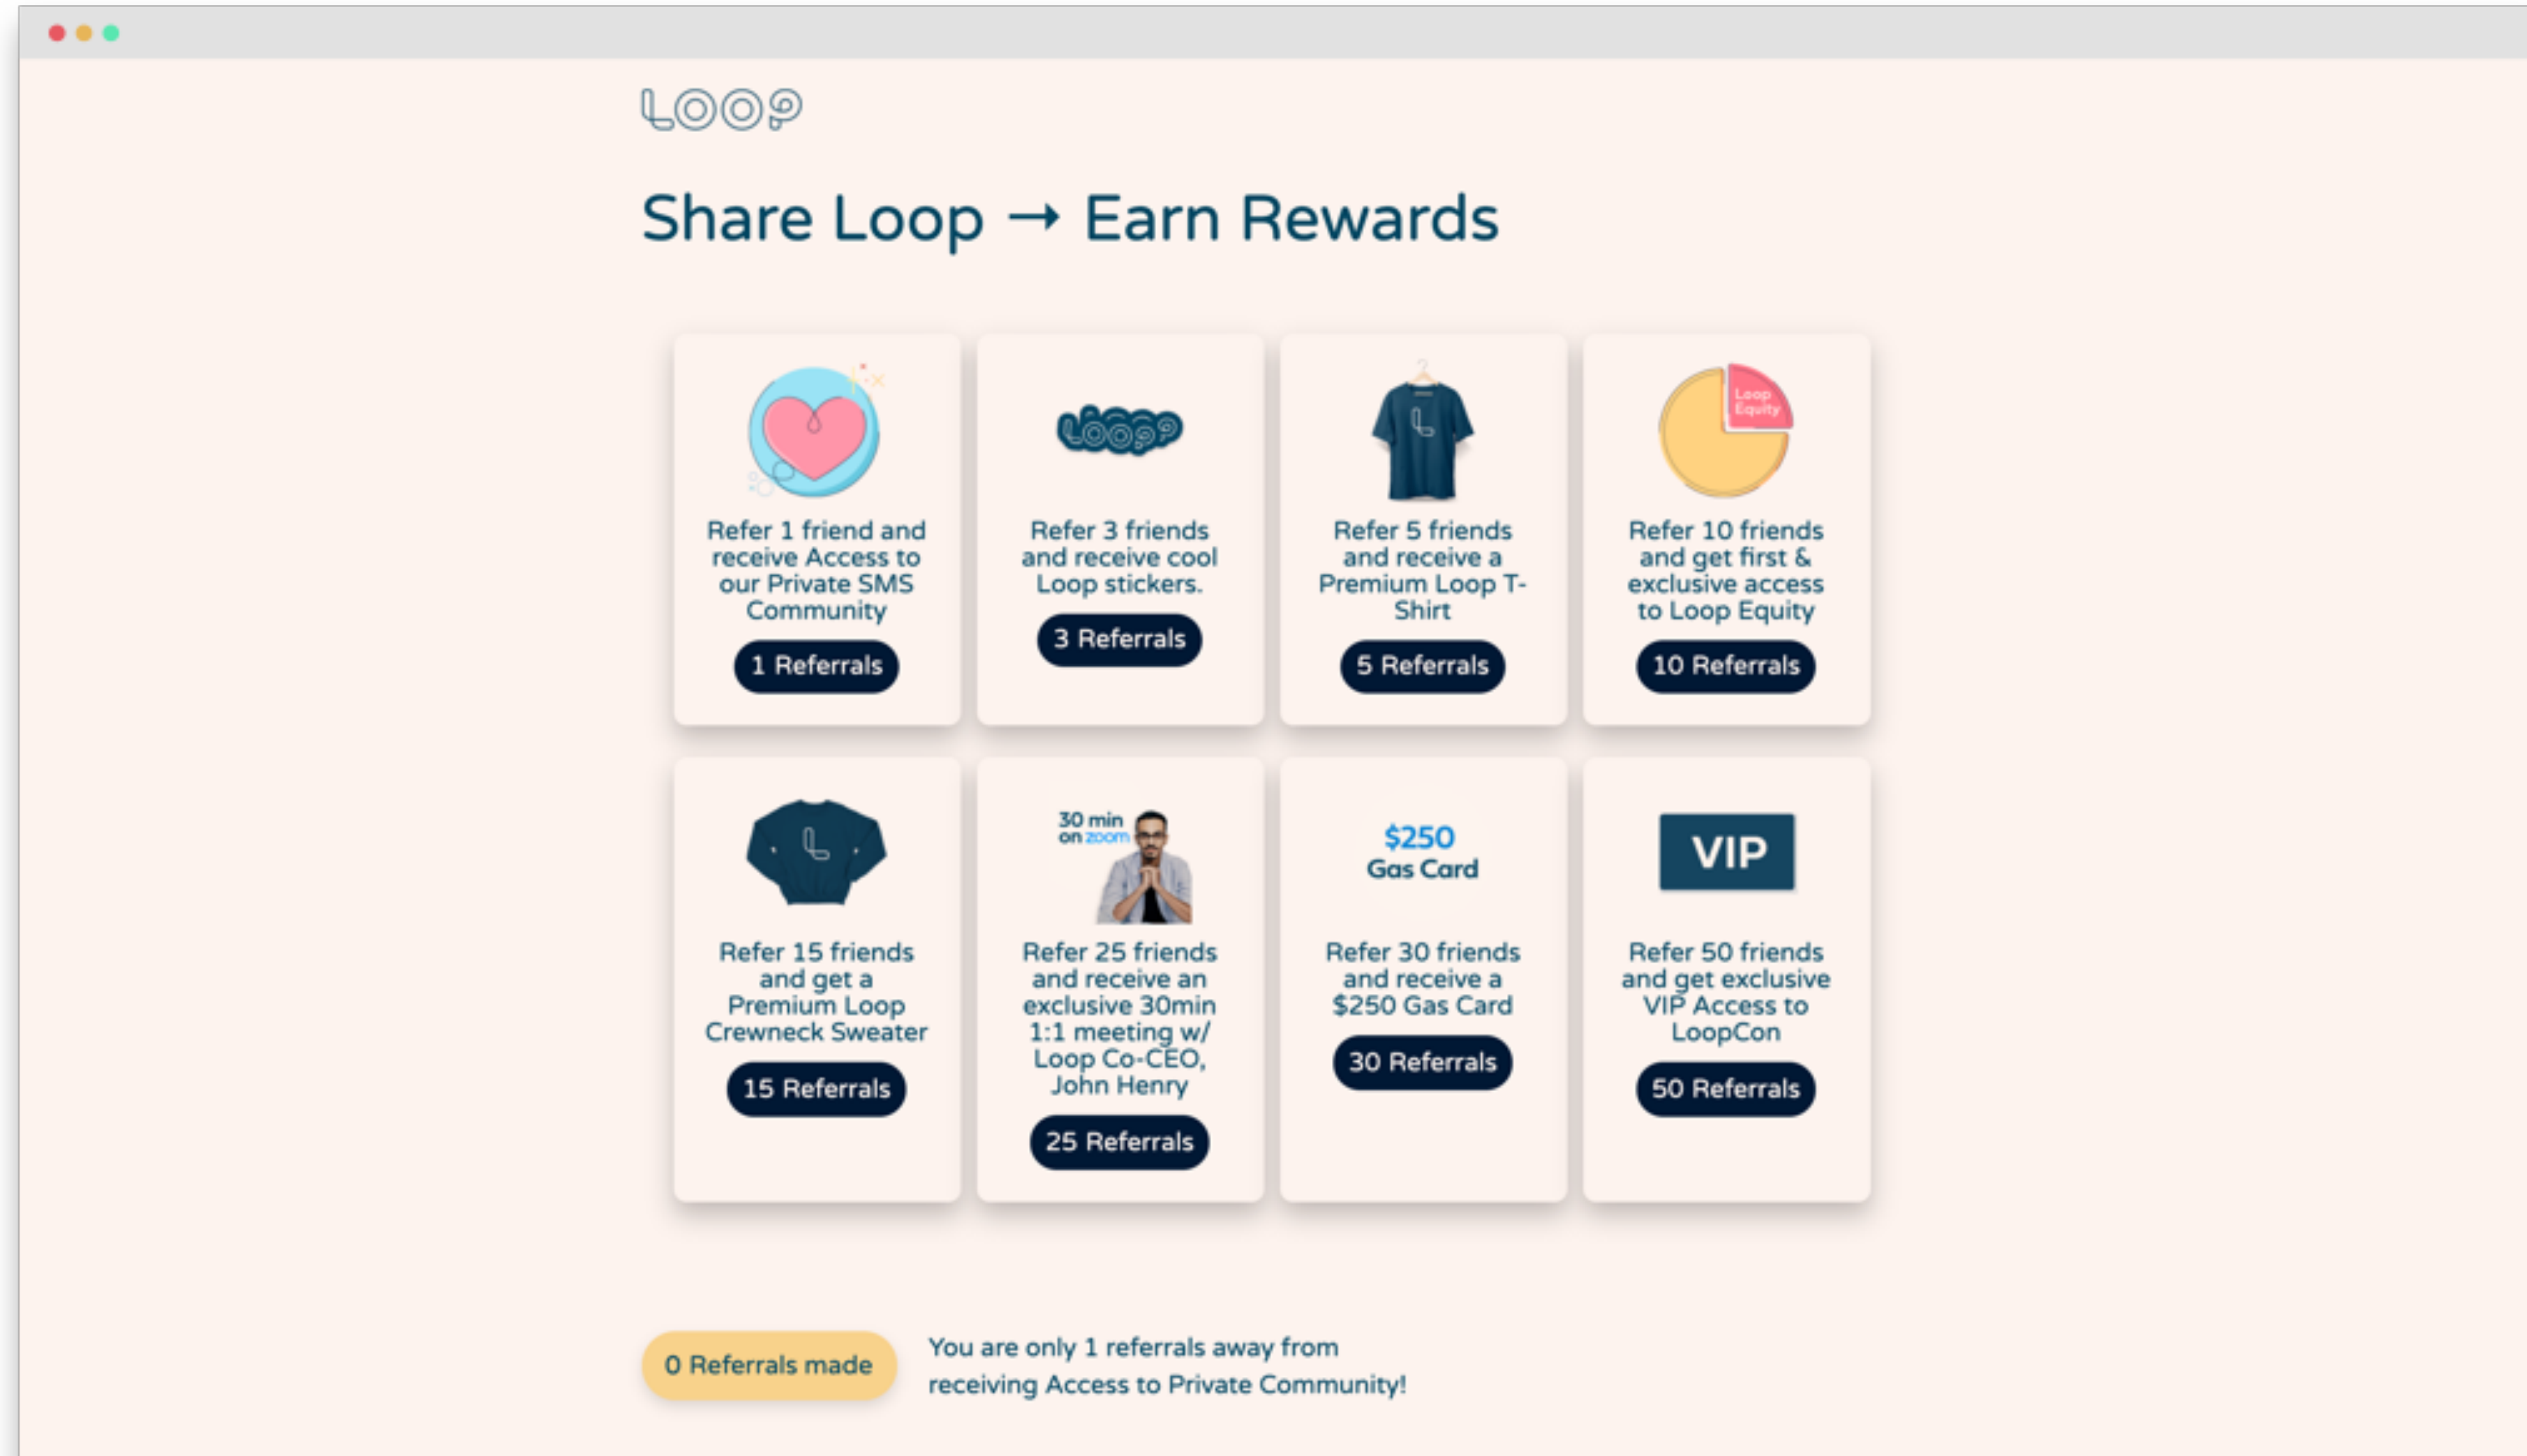

- Ready out-of-the-box (once you have a campaign, you have a referral portal)
- Choose between different templates
- Custom domain name (e.g, <https://refer.piedpiper.com>)
- Full customization (even supports custom HTML, CSS, JS)
- Your customers never need to sign up (reduces friction for the referrer)

Duda uses GrowSurf's out-of-the-box referral portal for their SaaS referral program.

DIY uses GrowSurf's out-of-the-box referral portal for their B2C referral program.

Loop uses GrowSurf's out-of-the-box referral portal for their milestone referral program.

Spread the word about InvestEngine!

We want more investors to experience better investing with InvestEngine.

Whether it's our globally diversified portfolios, disciplined approach to risk, or very low fees, we think InvestEngine offers a better way to invest.

Refer a friend to InvestEngine and for each of your friends who goes on to invest with InvestEngine, you'll earn a £25 investment bonus (up to a maximum of £125).

Simply enter your email below to join our free referral program.

Get £25 when your friend funds their first InvestEngine portfolio

1 referral

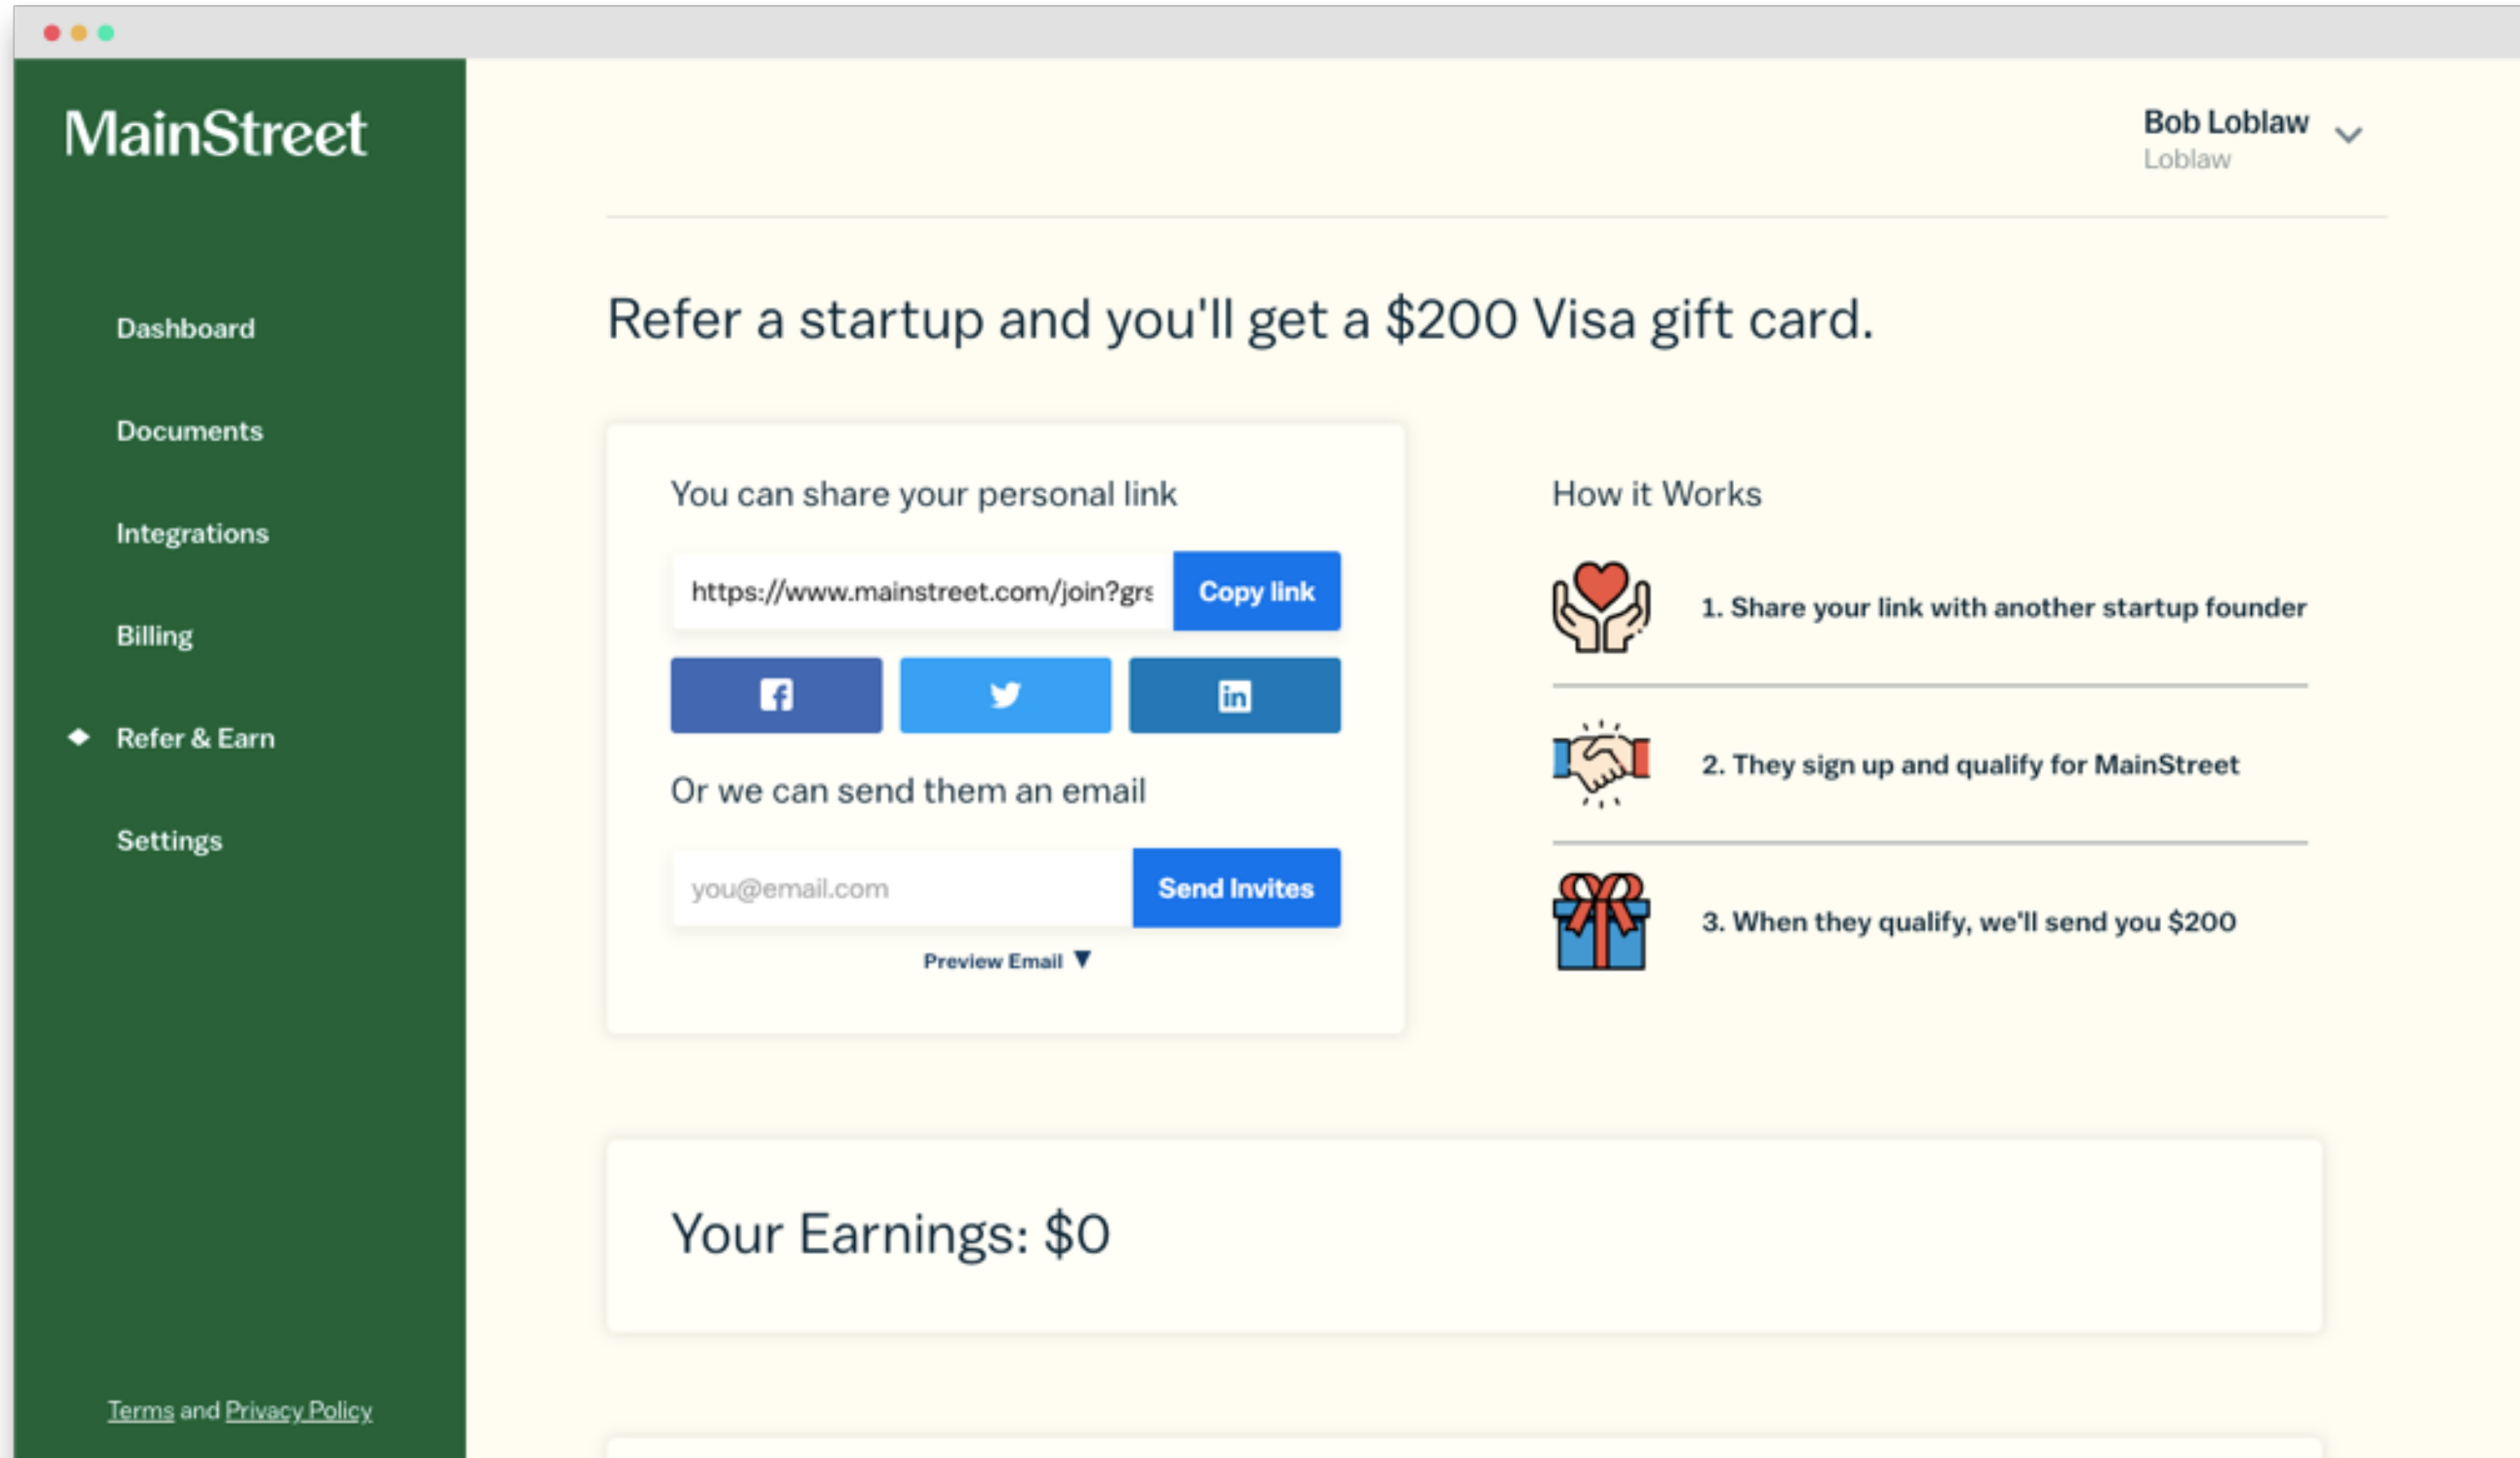

5 max per person

InvestEngine uses GrowSurf's out-of-the-box referral portal for their FinTech referral program.

GrowSurf Embeddable Elements

These next examples use GrowSurf's [embeddable elements](#). Customers choose this solution for the following reasons:

- One line of code to copy/paste (e.g, `<div data-grsf-block-form></div>`)
- Display referral links to your signed-in users at opportune moments
- Fully white-labeled solution
- Your users don't visit an external site to track referral progress (reduced friction)
- Your marketing team can make changes to the referral program without getting developers involved

MainStreet uses GrowSurf's embeddable elements for their SaaS referral program.

Give \$10, get \$10!

When you refer another teacher to Ubindi, you both get \$10 credit on Ubindi. All teachers are welcome — yoga, fitness, music, art, languages, ... and there's no limit to the amount of credit you can earn.

Here's your unique link to invite other teachers:

EmailShareTextShare

How it works

SHARE WITH TEACHERS

Share your unique referral code with any teacher that might find Ubindi useful — it doesn't matter what they teach. You can post in Facebook groups, send emails, texts or Whatsapp...

YOU EARN REWARDS

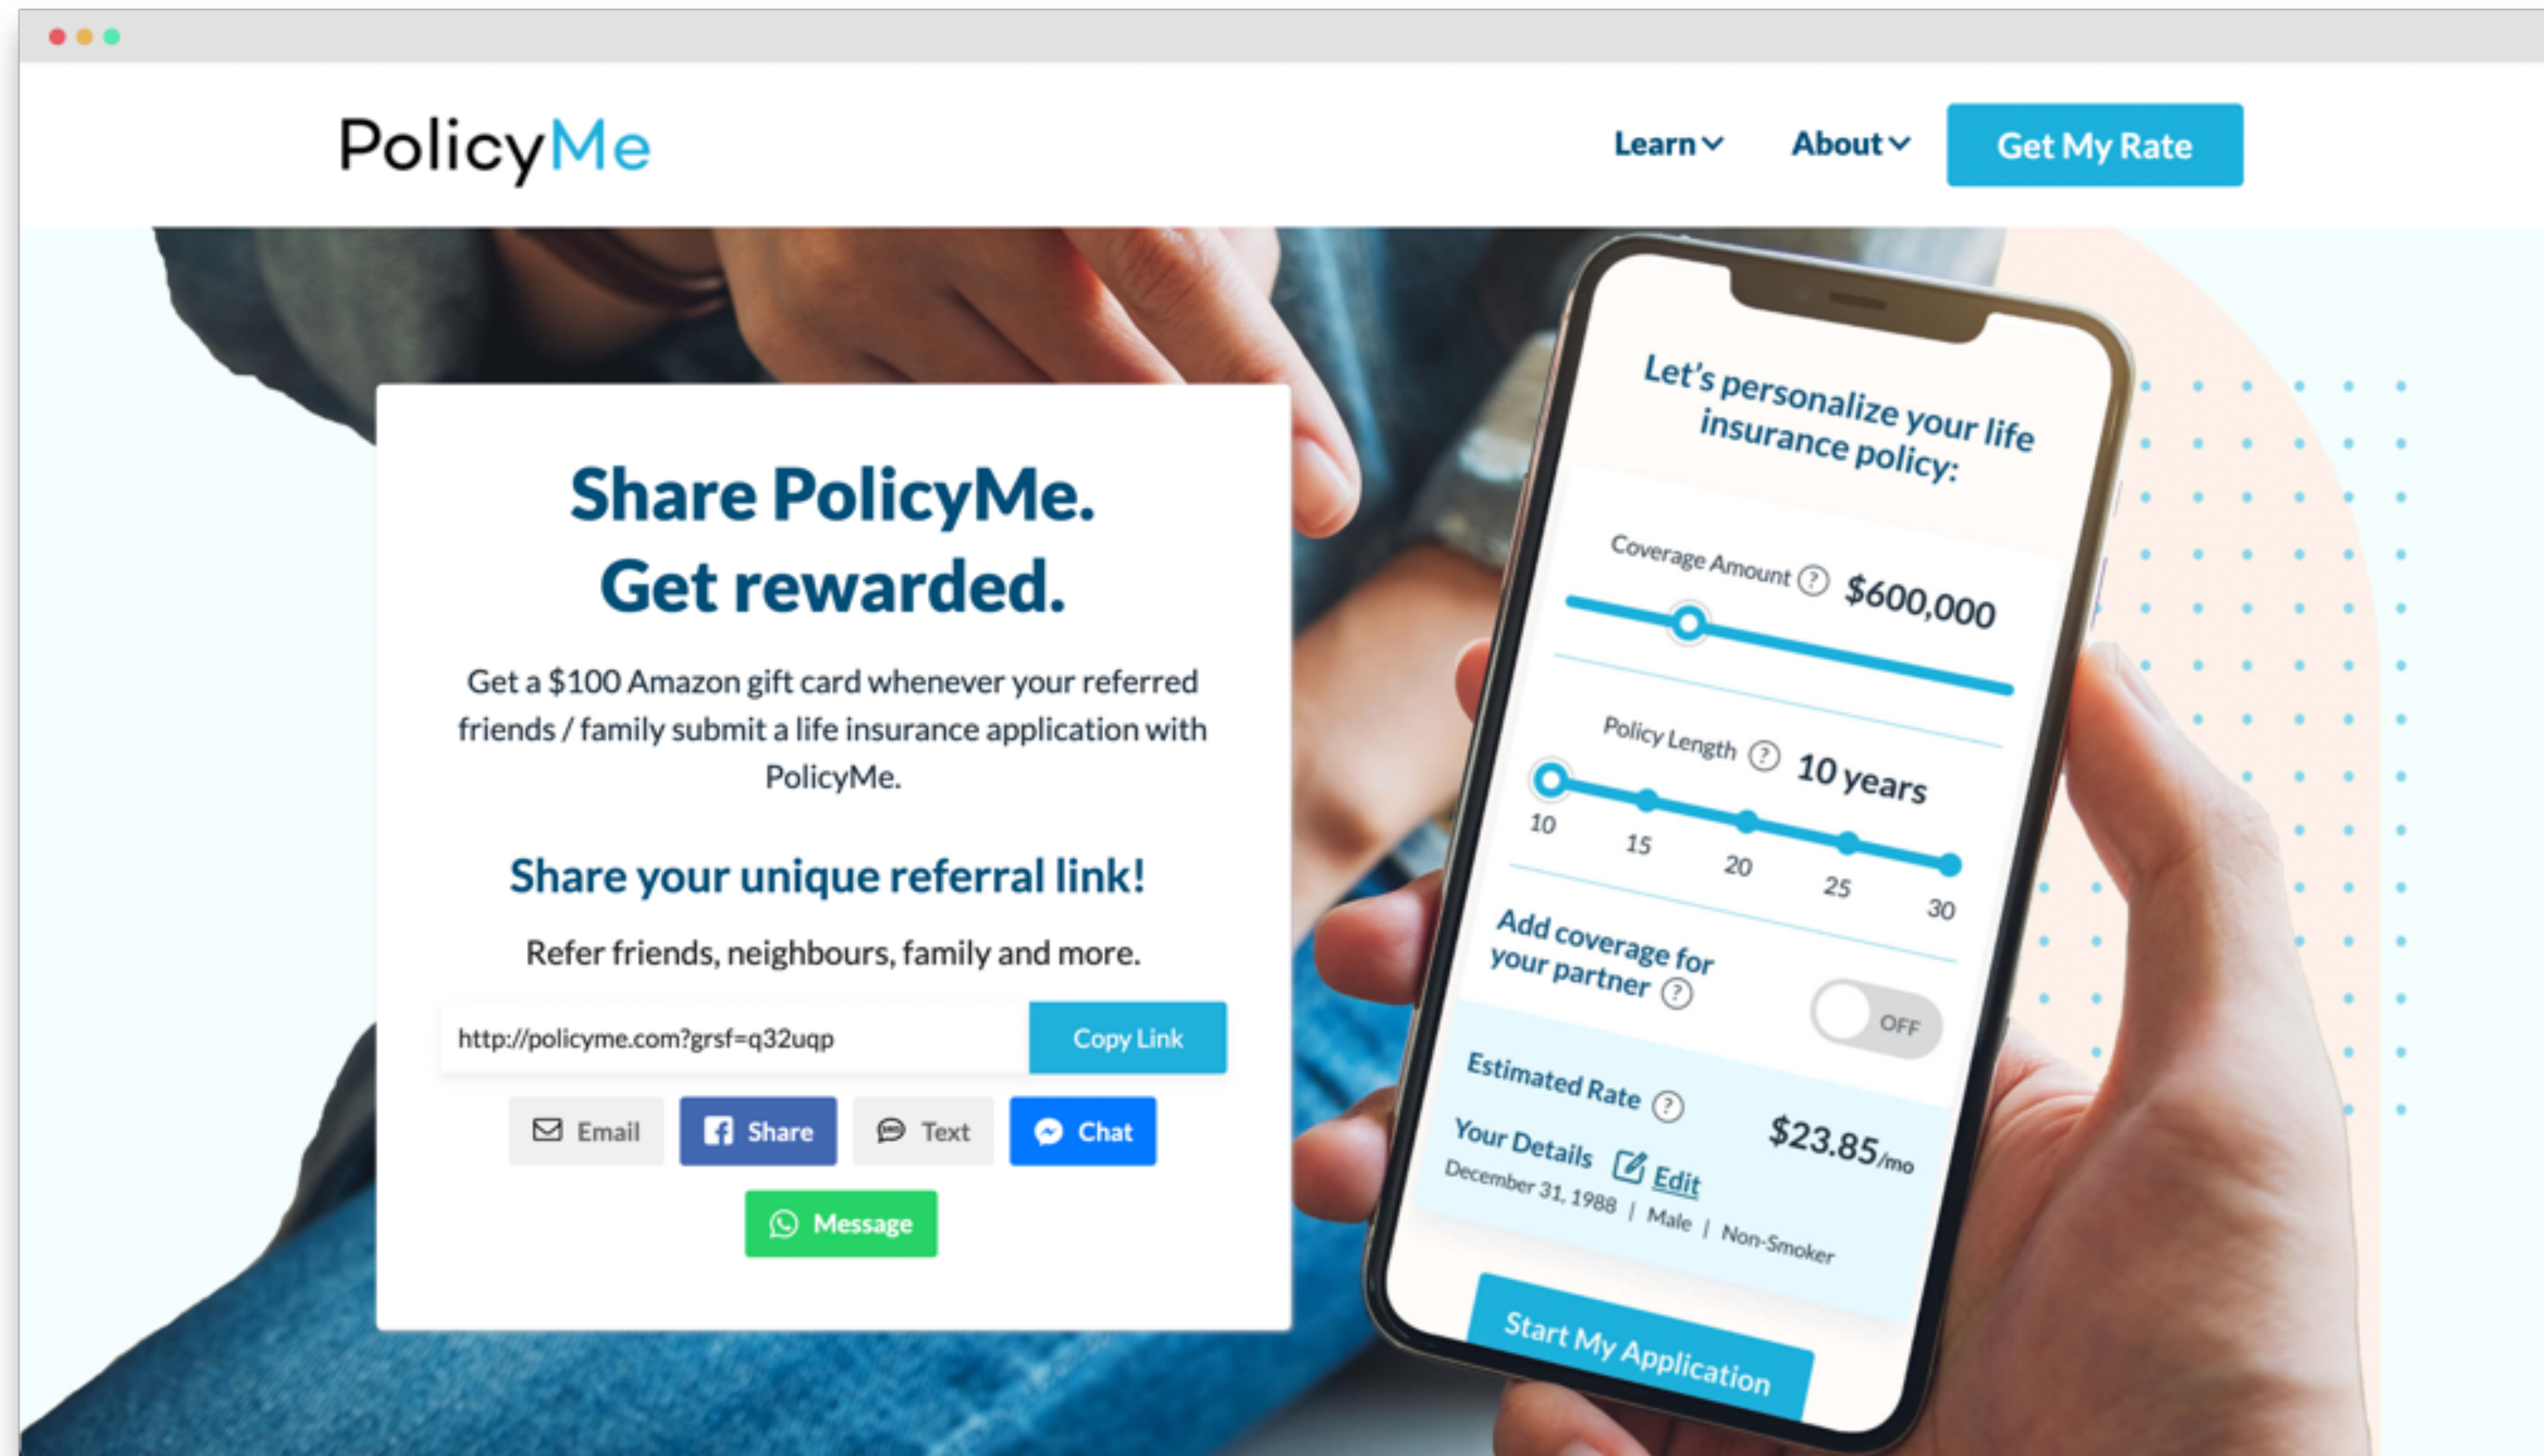

For every teacher that signs up on Ubindi from your link, you'll get a \$10 credit on your account (that's a free month on the Essential plan). There's no limit to how much credit you can earn.

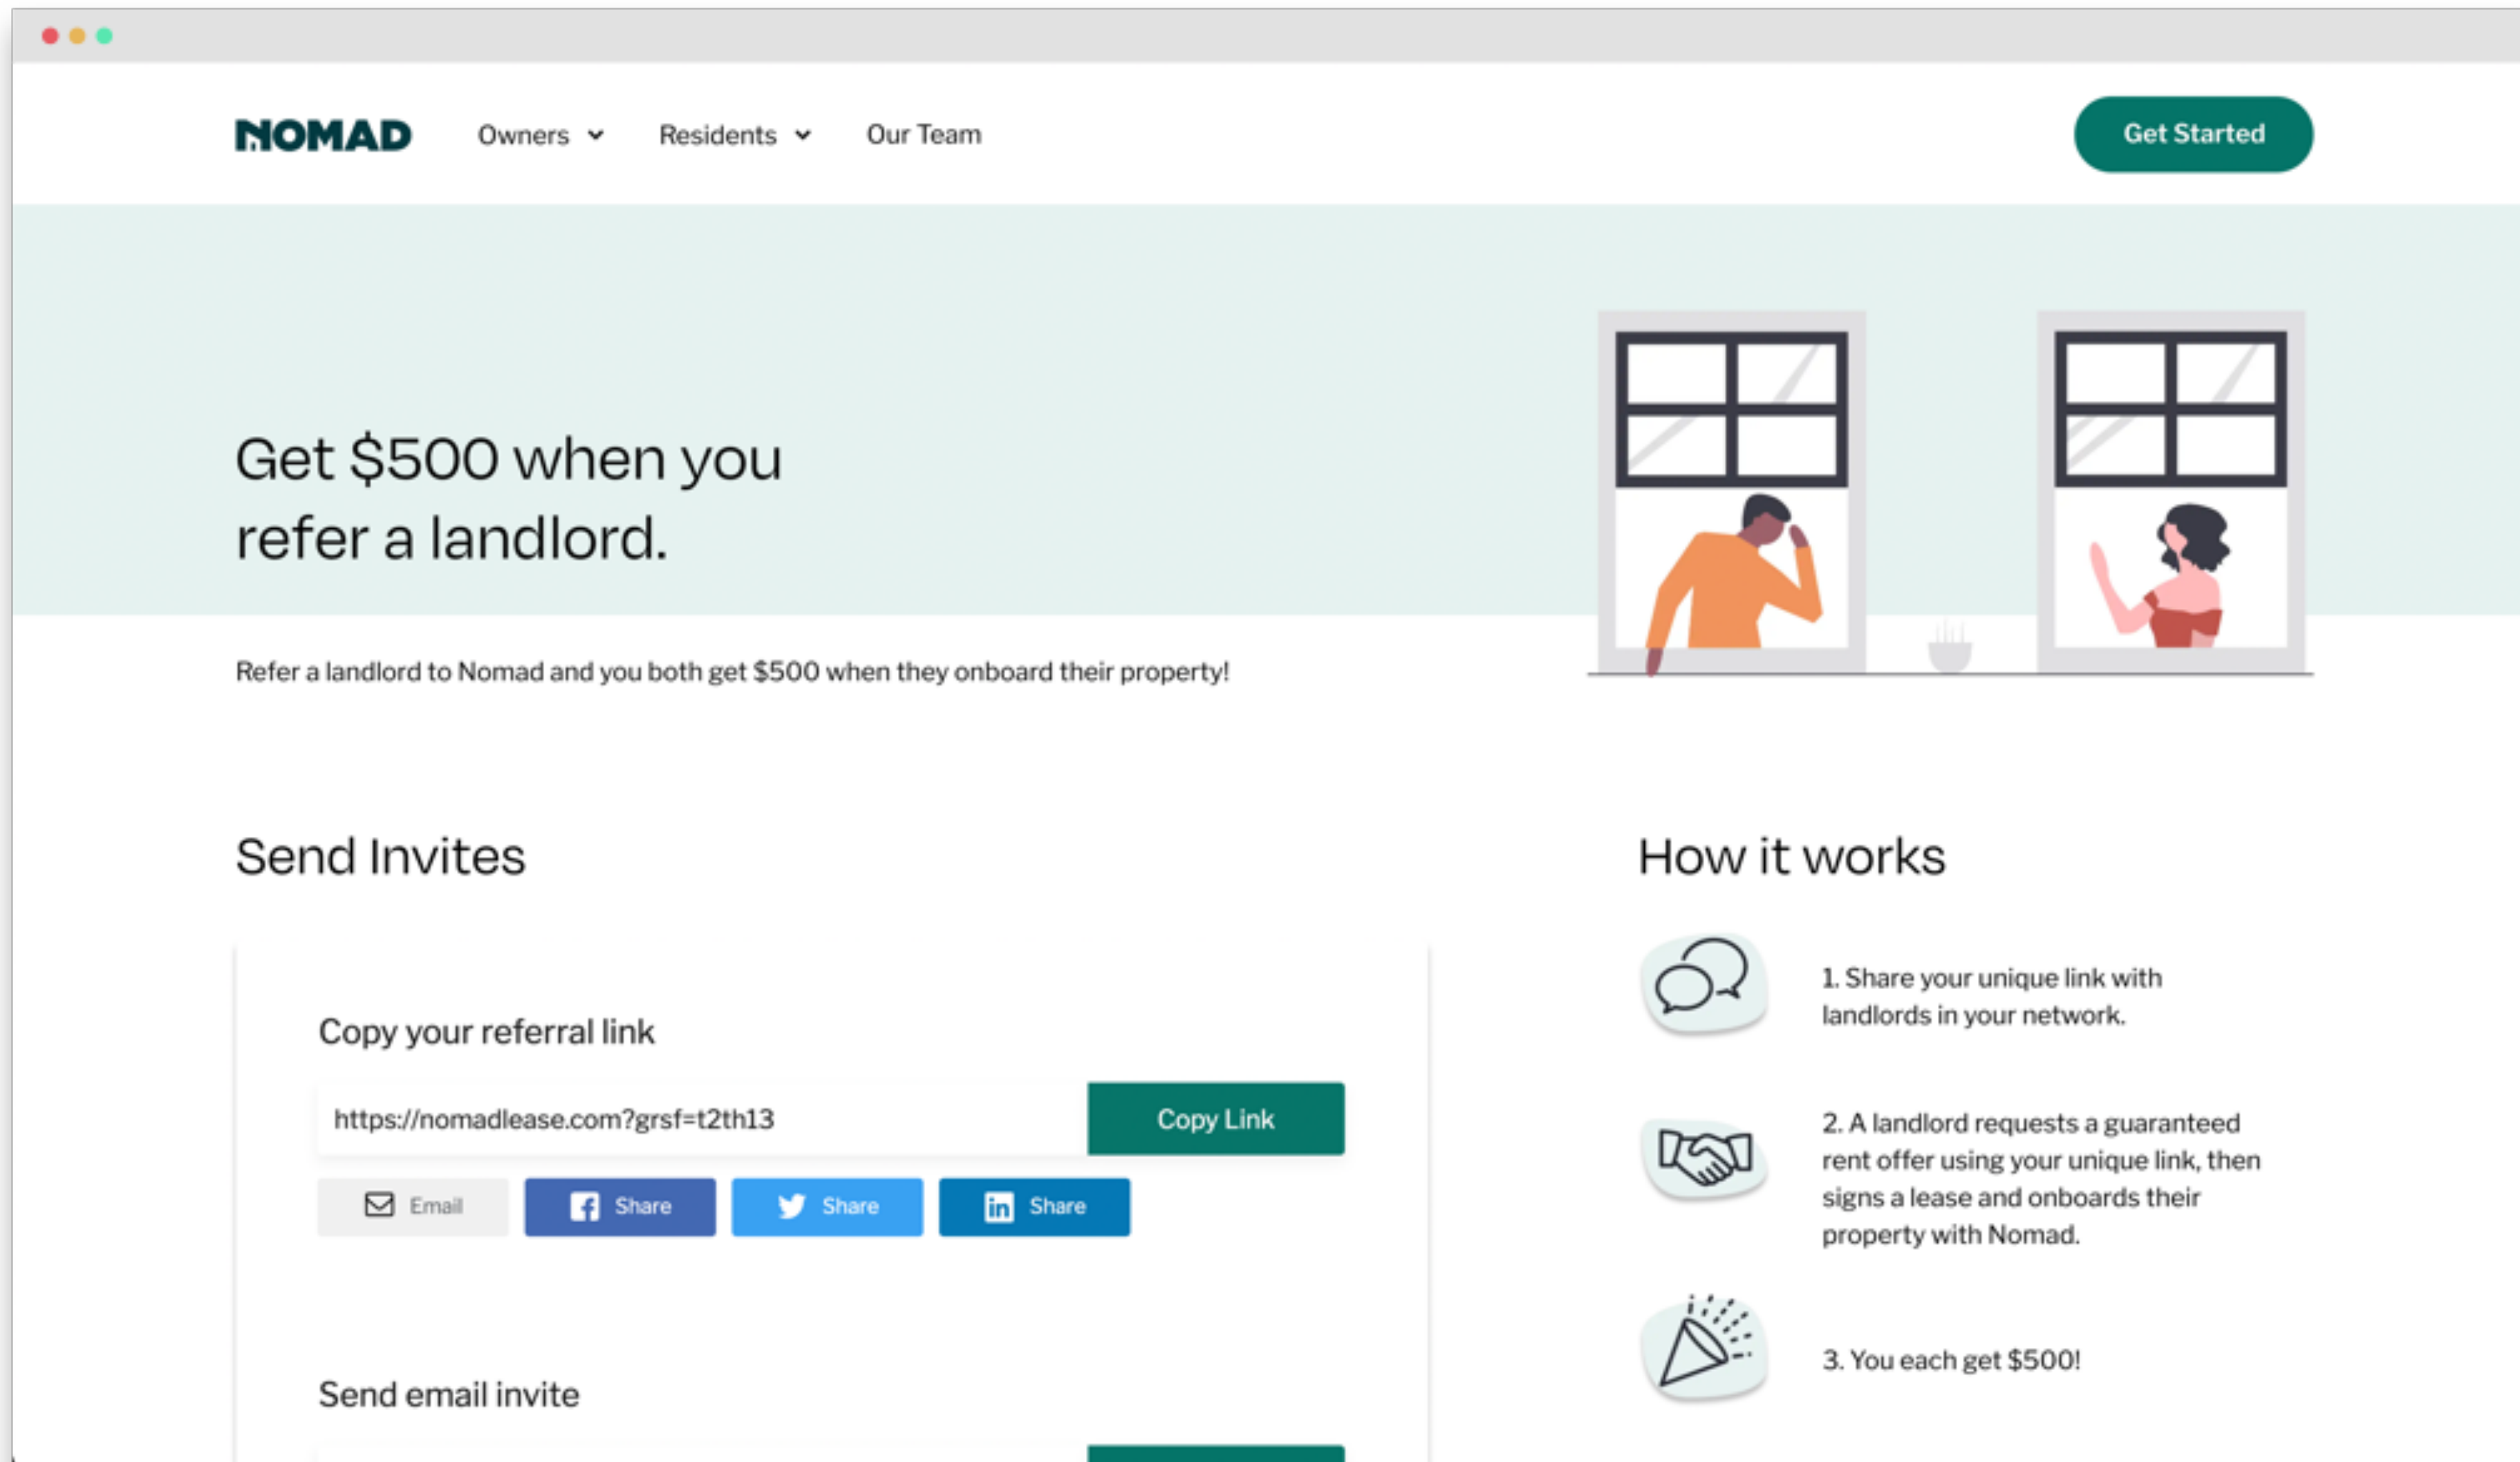

FRIENDS GET CREDIT TOO

As a welcome gift, the teacher you referred also gets \$10 credit for a free upgrade of their own Ubindi account, thanks to you!

Ubindi uses GrowSurf's embeddable elements for their SaaS referral program.

PolicyMe uses GrowSurf's embeddable elements for their B2C referral program.

Nomad uses GrowSurf's embeddable elements for their B2C referral program.

you live and what brought you to us.

Restrictions apply, see amazon.ca/gc-legal

Willful uses GrowSurf's embeddable elements for their B2C referral program.

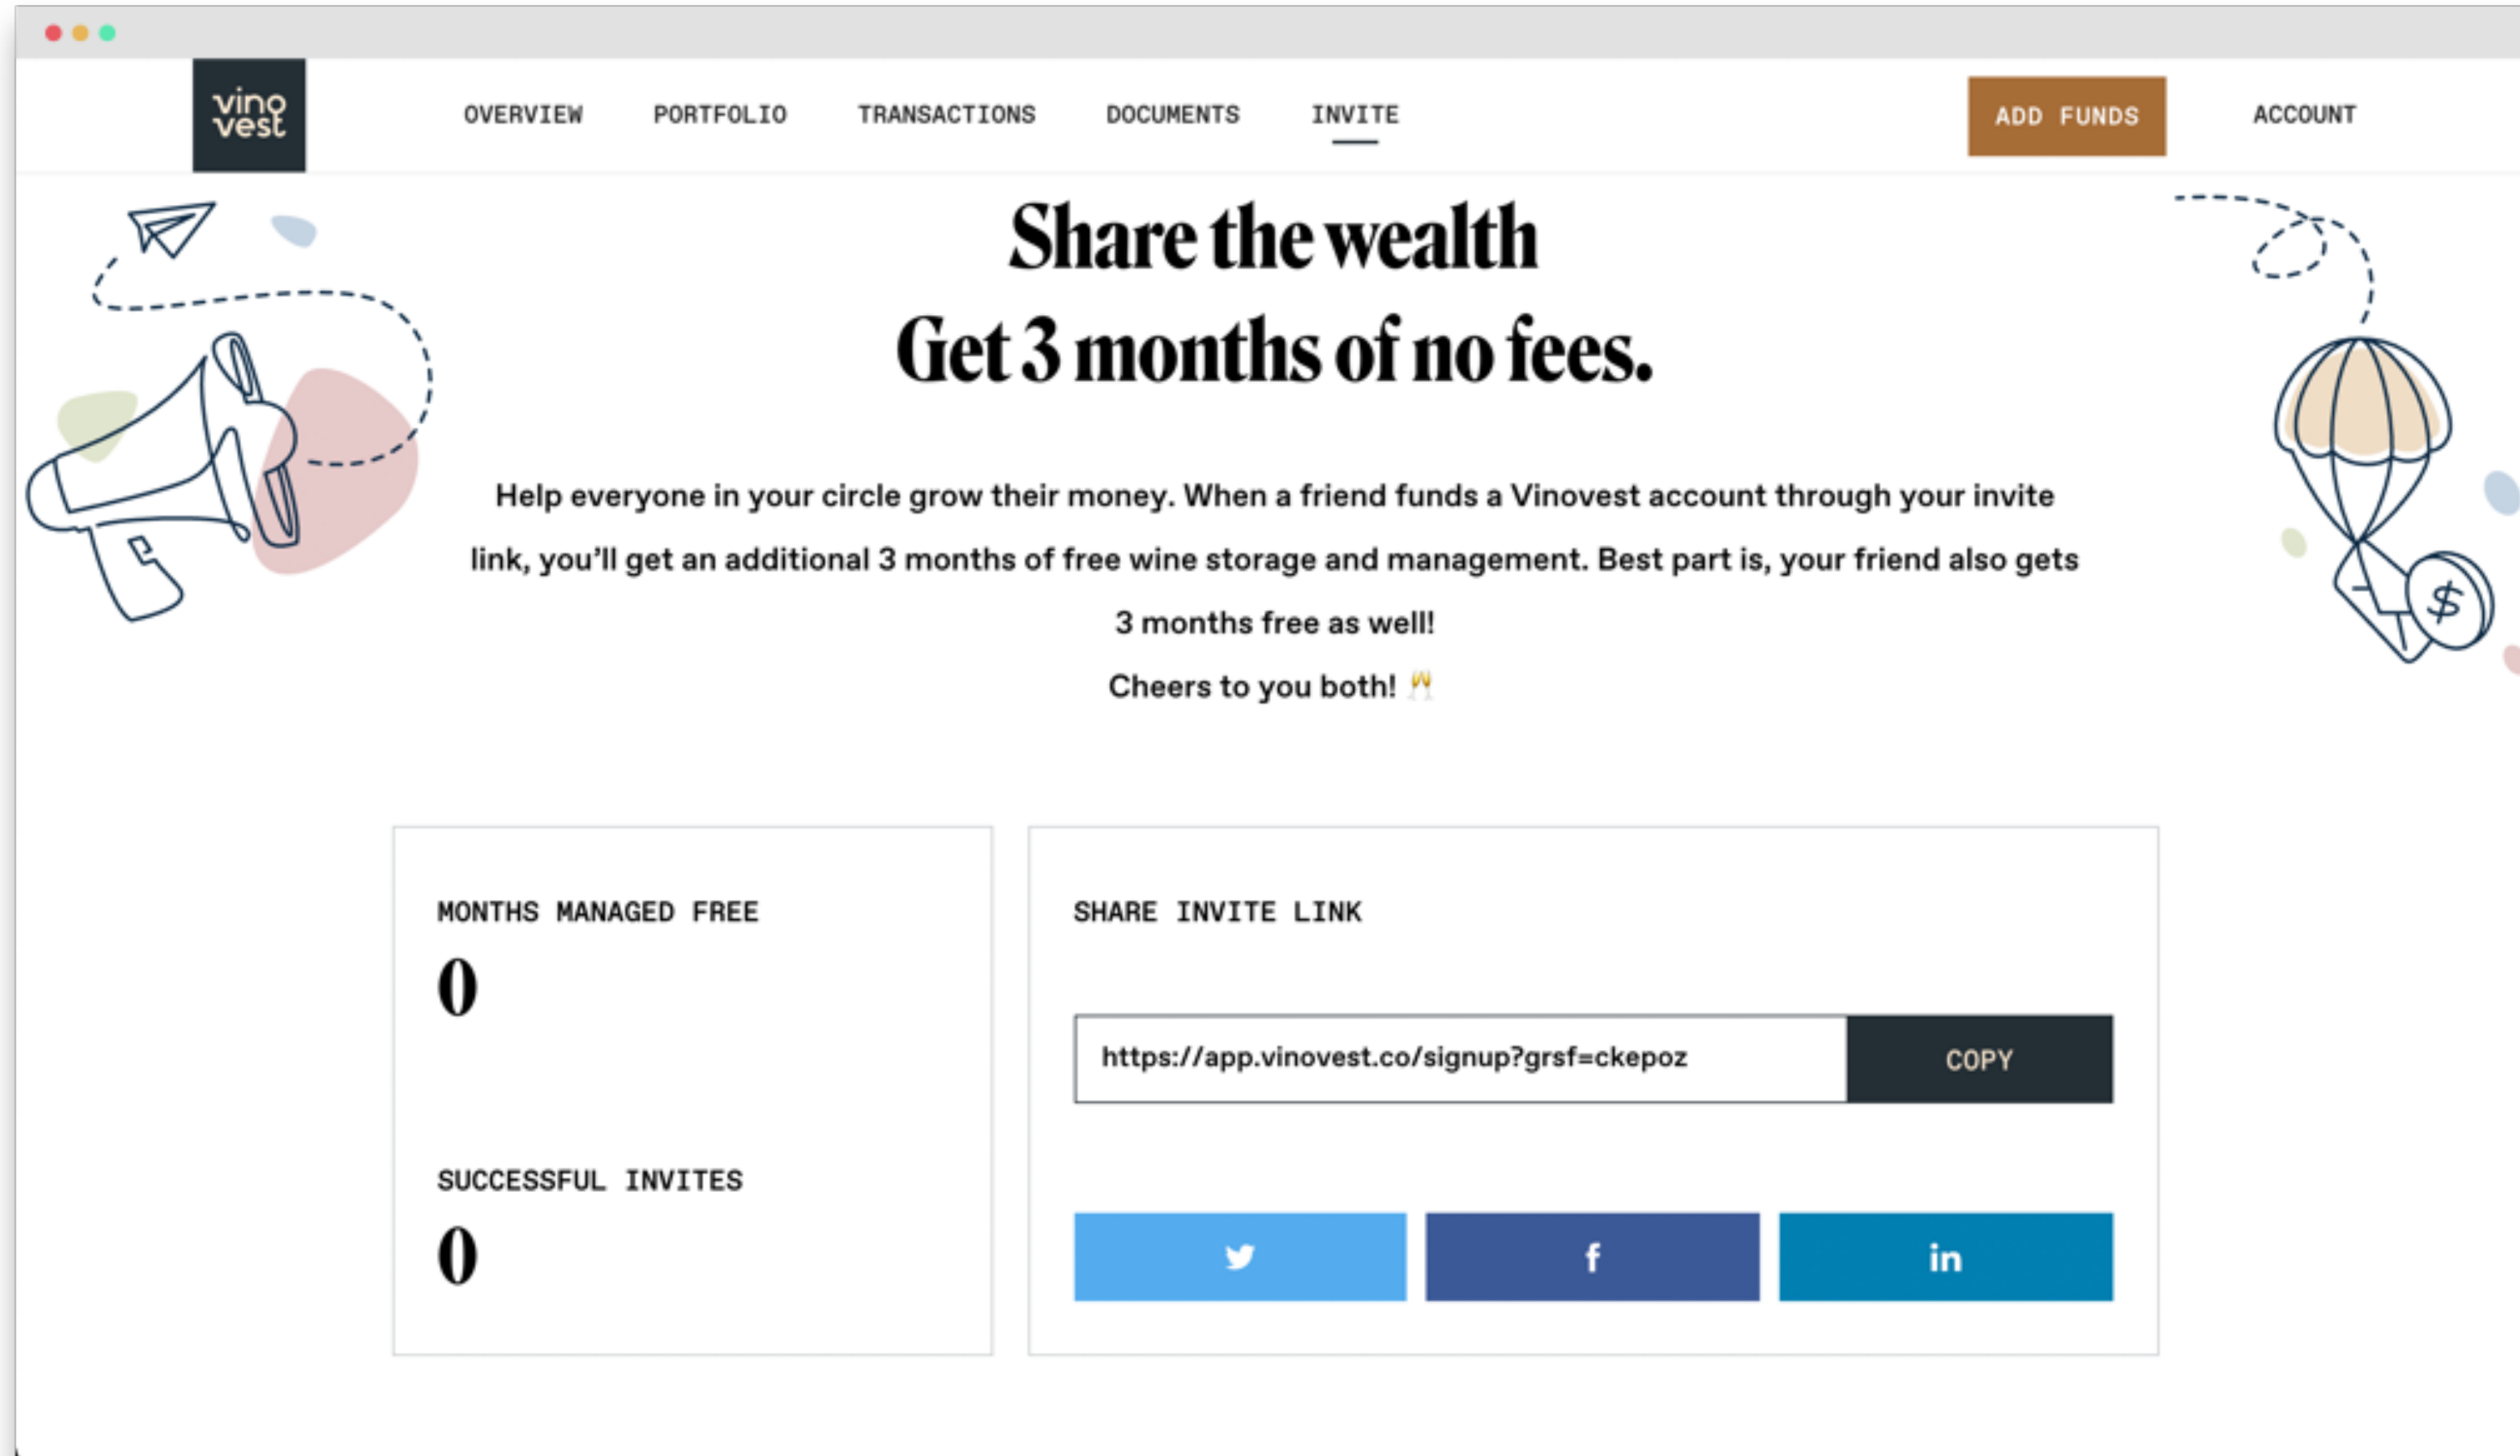

GrowSurf JavaScript Web API and REST API

These next examples use GrowSurf's [JavaScript Web API](#) and/or [REST API](#). Customers choose these solutions for the following reasons:

- Flexibility for dev teams to implement GrowSurf client-side (JavaScript), server-side (REST API), or both
- Full control over every aspect of the referral program (go above and beyond the capabilities of GrowSurf's embedded elements)
- Fully white-label solution (referral portal is within your web or native mobile app)
- REST API provides all endpoints necessary for native mobile app integration
- GrowSurf also provides webhooks for complete programmatic automation on all events (e.g, new referred signups, automate reward fulfillment)

Integrately uses GrowSurf's JavaScript Web API and REST API for their SaaS referral program.

Vinovest uses GrowSurf's JavaScript Web API and REST API for their FinTech referral program.

Request a Demo of GrowSurf
